The EPITAPH compares favorebly with its territorial contemporaries, and no labor or expense will be spared to make it the leading journal of Arizona.

The Common Council of Los Angeles has dropped the prefix "common." Evidently the members thought the word too awfully suggestive of their calibre.

Mrs. Laura Short of Nevada, advertises in this issue of the EPITAPH for two men. We know where there is one mighty captivating cuss who is not averse to being hunted up provided Laura could manage to be comforted with one sizeable individual. He is not the proprietor of the Red Store, either.

Old Ben Wade-

When old Rea Wade was Circuit Judge in Ohio, one of his decisions was reversed by the Supreme Court of the State, and the case came back to him on mandate. He disregarded the mandate and fellowed his own decision, "But your honor," exclaimed the beaten counsel, "the Supreme Court reversed your former judgment!" "Yes, so I have heard," was the reply. "I will give them a chance to get right." The decision was again reviewed, this time with Judge Wade's written opinion, and the court decided that he was right. A bill of costs had been before him for three terms and had been discussed at mordinate length. As he was about closing the third term the autorney in the case reminded him that the matter had not been disposed of. "What is the amount in dispute?" asked Judge Wade. "Nine dollars and - cents." "Fil pay the d-d thing myselt," said he, throwing a ten-dollar bill to the clerk, "Enter the costs satisfied." During the impeachment trial there was delay in opening the proceedings one morning because the Chief Justice's black robe of office had been mislaid. The pages, the few visitors present in the robing room, and Mr. Chase himself joined in the search. The case was grave. The court could not go on. At the last moment Wade, who had grimly observed the scene, saw something black under some other thing, and lunging it with his cane, fished out the delinquent black samite, which he irreverently held out at cane's end with, Here Chase, here's your d-d old gown," It is said that the Chief Justice was more dignified than usual all that

Florida Artesian Well.

An artesian well is boring in St. Augastine, Florida. The well which is twelve feet in diameter, is said to be the largest artesian well in the world, and by actual measurement flows at the rate of 7,000,oco gallons a day. The hole is now 700 feet below the surface and is deepening every day. The old fashioned opinion that Floriday was a coral reef, has of late years been vigorously disputed. The boring of this well proves that an immense depth of coral underlies the State, Samples of the material have been saved at every stage of the boring. Another interesting fact is that, the deeper the well Is drilled, the higher the temperature of the water becomes. It is now about 80 degrees Fahrenheit.

Alamaden-Richest Quickeilver Mine.

In eight months of 1886, the Alamaden mine, Spain produced 51,199 flasks of quicksilver, which is 21,218 flasks more than were produced by all the quicksilver mines in the United States in the whole year. In the month of Februry the highest limit was reached, 7,668 flasks, and iu no month did the production fall below 2568 flasks. We give the details: January, 6465; February 7679; March 7305; April 7184; May 5737; October 2568: November 6566; December 7627. The value of this product at P7, or say \$35 per flask was \$1,800,000.

The Montana miners who recently seized a New York capitalist and held him a prisoner in the mountains until he arranged for the payment of their wages had several precedents for their performance. A few years ago, when a bank failed in a frontier Kansas town, the people held the cashier until he was ransomed by his friends, the alternative being death at the end of a rope. Where this kind of law is administered the chances are that every man will come to

his own sooner or later, generally sooner. Several wild bulls broke lowse in the City of Mexico Wednesday, while being driven through the city, and killed a number of persons. The bulls were of the famous Atenco breed, and were to be used in the coming bull-fight. Two of tion, them entered the courtyard of the national palace and were shot down by the soldiers. The affair created much excitement.

The Gate City Guard, of Atlanta, are happy. The King of Belgium and the President of France have signified their willingness to permit this crack military company to march through their domains, armed and equipped, resplendent in gorgeous uniform and terrible in the glitter of warlike arms. It has been explained that they do not go abroad to fight or paralyze Europe.

A vote recently taken in the Michigan Senate gave Cleveland five votes for President in 1888, and David Hill, of New York, one. The canvass in the Assembly gave Cleveland lifteen and Hill five-six in all for Hill, A pretty good start so far away from home, and if alone in the house. The Beginning Of The End-

The beginning of disease is a slight debility or disorder of some of the vital organs, the stomach, the liver or the bowels usually. Thereare despeptic symptoms, the liver is troublesome, the skin grows tawney and unhealthy looking, there are pains in the right side or through the right shoulder blade. The climax is often an utter prostration of the physical energies, perhaps a fatal issue. But if the difficulty is met in time with Hostetter's Stomach-Bitters, which is always effective as a remedy, and it should be resorted to at an early stage, there will be no reason to apprehend those injurious subsequent effects upon the system often entailed by entirely cured diseases. Far better is it, also, to employ this safe remedial agent in fever and ague and other malarial complaints, than quinine and other potent drugs, which even when they do prove effectual for a time, ruin the stomach and impair the general
